Sir/Madam:

Prior to examination, Applicant respectfully submits the enclosed substitute specification (without claims per MPEP 608.01(q)) along with a marked up version of the substitute specification showing all of the changes to the specification of record.

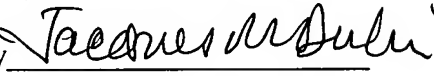

The substitute specification has been reformatted to omit discussion of prior art references; move the parts description to the end of the specification in the format of a parts list that is an aid to examination (and may be cancelled upon allowance); reduce margin size; adjust line spacings, and include paragraph and claim line numbering, and conform to the Paperwork Reduction Act.

**The substitute specification includes no new matter.** The new substitute specification is solely to improve readability and shorten the length (it is reduced from 40 to 20 pages) by re-formatting it. There are no changes to the text, claims or drawings.

No fee is due for the papers being filed herewith. If incorrect, and a fee is required, please charge Deposit Account No. 04-1699 for any fees due and reference the Attorney Docket number 7159-001 US in recording any fee charge made.

Date: August 6, 2004

Respectfully submitted,
